Index for Volume 12 (1963)

Aedes, larval and adult classification of 97
Alexander, R. D., article by 202
Animal species, evolution, and geographic isolation 202
Anoplura, taxonomy of 134

Beetles, distribution of in Pleistocene 178
generic size in 15
Biochemical relationships of the mouse *Peromyscus* in New England 122
Biotic associations and extinction 38
Bipalium 36
Blair, W. F. (book reviewed) 43
Boyden, Alan, article by 1
Brown, Byron W., article by 134

Characters, generic 118
Classification 151
Climate, effects on beetle distribution 178
Code of nomenclature 39
Comment on James' letter 93
Comparative cytology, use in classification 71
Congruence of larval and adult classifications in *Aedes* (Diptera: Culicidae) 97
Cook, Edward F., article by 134
Corals, genomorph concept in 83
Crassostrea 118
Culicidae, larval and adult classification of 97

Dillon, Lawrence S., article by 71
Dobzhansky, Theodosius (book reviewed) 41
Dundee, Dee S., article by 36
Dundee, Harold A., article by 36

Enderleinellus suturalis complex 134
Evaluation of the genomorph concept in rugose corals, an 83

Familial affiliation of the spider genus *Textrix*, the 173
Frequency of genera of a particular size in three families of phytophagus beetles, the 15
Frogs, early history 20
Further comments on biotic associations and extinction 38

Generic character, can it be lacking in individuals of the species in a given genus, a 118
Genomorph concept in corals 83
Guide to the scientific and technical literature of eastern Europe 149

Hecht, M. K. and D. Marien, article by 43
Hecht, Max K., article by 20
Howden, H. F., article by 178

James, Maurice T., article by 91

Kim, Ke Chung, article by 134
Kiriakoff, Sergius G., article by 93
Kissinger, D. G., article by 15

Loefer, J. B. and O. H. Scherbaum, article by 175
Louse, Anoplura: Hoplopleuridae 134

Mankind evolving (review of) 41

Manter, Harold W., article by 45
Marien, D. and M. K. Hecht, article by 41
Mayr, Ernst, article by 204
Mayr, Ernst (book criticized) 202
Michener, Charles D., article by 151
Mosquitoes, classification of 97
Mouse, *Peromyscus*, biochemical relationships 122

Nicol, David, article by 38
Notices 149, 172
Numerical versus phylogenetic taxonomy 91

Observations on the land planarian *Bipalium kewense* Moseley in the Gulf Coast 36
Ostrea 118
Owen, D. F., article by 8
Oyster, characters of 118

Peromyscus, biochemical relationships 122
Phenetic contra phyletic systems 94
Planarian, *Bipalium* 36
Points of view 38, 91, 202
Precipitin testing and classification 1
Protozoa, type collection 149

Quantitative taxonomic study of the *Enderleinellus suturalis* complex (Anoplura: Hoplopleuridae), a 134

Reclassification of the major groups of organisms based upon comparative cytology, a 71
Reevaluation of the early history of the frogs, a. Part II 20
Reply to criticism by R. D. Alexander 204
Reviews 41
Rohlf, F. James, article by 97
Roth, V. D., article by 173

Sattler, Rolf, article by 94
Scherbaum, O. H. and J. B. Loefer, article by 175
Screech owls 8
Serological and biochemical factors relative to taxonomy of *Tetrahymena* 175
Serology 1, 122, 175
Some future developments in taxonomy 151
Some results of the 1961 Code of Nomenclature 39
Speculations on some beetles, barriers, and climates during the Pleistocene and Pre-Pleistocene periods in some nonglaciated portions of North America 178
Stenzel, Henryk B., article by 118
Subspecies, in screech owls 8
Symposium: the data of classification (concluded) 1

Taxonomy, future developments in 151
Tetrahymena, taxonomy of 175
Textrix (spider genus), familial affiliation of 173
Trematodes of South American freshwater fishes, zoogeographical affinities of 45

Van Valen, Leigh, article by 39
Variation in North American screech owls and the subspecies concept 8
Vertebrate speciation (review) 43

Waters, J. H., article by 122
Wilson, Edward C., article by 83

Zoogeographical affinities of trematodes of South American freshwater fishes, the 45
